

## EAU CLAIRE WRECK PENNY UP TWENTY

### DISASTROUS COLLAPSE OF AN OLD BUILDING.

**Three Men Dead, Two Dying and Fifteen More or Less Hurt—Those Uninjured Left Perched on Top of the Front Wall and Rescued With Ladders.**

Eau Claire, Wis., Aug. 18.—While twenty-five workmen were engaged in tearing down Music hall, a four-story frame structure, the building collapsed. The dead and injured are:

Halvor Oleson; has wife and four children; body recovered.  
William Dean, contractor.  
Nicholas Roach.

John Thorsen; crushed by falling timbers; cannot live.

James Dean; buried under a mass of timber; cannot live.

Charles Agan; badly crushed.

Ole Salberg; seriously crushed.

John Larson.

Gus Meyers.

Ole Johnson.

Brady Nedrum.

H. B. Walters.

William Berg.

W. E. Evans.

William Arnold.

Bert Wallum.

Ludwig Berg.

When the building came down five men who were working on the roof were left perched on the front wall. These were the only ones of the forty who escaped injury. They were soon taken down by the fire department ladders.

The dead body of Halvor Oleson was first taken out. John Thorsen, of Little Black, Wis., was next. He leaves a wife and children. James Dean, of Eau Claire was next. His recovery is doubtful. Men are still digging for the bodies of William Dean and Nicholas Roach, supposed to be buried in the basement.

The front wall is still standing, but is liable to fall. Travel is blocked for three blocks. The fall of a portion of the west wall, torn down by the fire department, carried away electric light, power and telephone wires. Half the town is in darkness and the street railway is tied up.

Two concerns had the job dismantling the building. Dean of this city had the contract to tear down the superstructure and Schmidt & Bros. of West Superior had the stone foundation.

It is feared that besides Dean and Roach, perhaps three or four other men, in the employ of Schmidt Bros., are dead under the ruins. Their names are not known. It is said they were from West Superior.

The cause of the collapse is related as follows by one of the workmen: At the rear of the building extending from north to south was an iron rod which had been put in to strengthen the walls. This rod was cut in the course of knocking off the upper story. As soon as the rod was cut the north wall spread and the floors dropped and forced the south wall outward.

William Dean, who is vice president of the Phoenix Manufacturing company, had just entered the building and reached the second floor when the crash came.

It is believed the searchers have been looking in the wrong portion of the ruins for the bodies, and that they are buried under tons of brick from the south wall.

Music Hall was owned jointly by Alfred Kahn, the leading dry goods man of this city, and Peter Truax, a wealthy lumberman and real estate owner.

An inquest was immediately ordered, but, owing to the excitement, it was continued until Wednesday.

The building had been occupied until recently, and though old had been considered safe.

Many Lives Placed in Danger.

Detroit, Mich., Aug. 18.—A south-bound freight train was derailed Monday two miles south of Boyne Falls. A dozen telegraph poles and a number of trees had been wedged in between the rails, with the evident intention of wrecking the north-bound Petoskey passenger. As that train plunges down a heavy grade at great speed nothing but a miracle could have saved it from going over a fifty-foot bank. The slow freight train going up grade had better luck. It is thought the wreckers had planned robbery.

Kansas Population 1,336,659.

Topeka, Kan., Aug. 18.—The population of Kansas, as returned by township assessors, has been tabulated by the state board of agriculture, and the total is 1,336,659, or a net increase during the last year of 1,925. Forty-five counties have gained 27,221. The smallest gain is four, in Stevens, and the largest 3,277, in Cherokee. Sixty counties lost 25,296, the smallest loss being one, in Phillips, and the greatest 2,234 in Cowley.

Had Lost His Farm.

Atchison, Kan., Aug. 18.—A freak of the treacherous Missouri River caused Carl Schmidt, a pioneer citizen, to blow his head off with a shotgun late last night. A year ago Schmidt lost his farm, all he possessed, by the river cutting through it, and became despondent over the loss. The case was a peculiar one, and was noted in the government river reports. Schmidt was 61 years old and leaves ten children.

## WORK OF DYNAMITE.

### Terrible Explosion Near Lancaster, Pa.— Three Men Killed.

Lancaster, Pa., Aug. 18.—Three men were killed, fifteen or more injured, and several buildings demolished by the explosion of twenty-five pounds of dynamite at New Holland on Monday. The Pennsylvania Telephone company is building a new line in that vicinity and had stored the explosive in the summer kitchen of the Eagle hotel. Early in the morning Charles F. Cannon, an employee of the company, and one of the gang just about to start to work, went to the summer kitchen to get enough dynamite for the day's use. A few moments later there was a terrible explosion and one side of the summer kitchen was blown out. A big hole on another side had blood and flesh on the ragged edges, and it is supposed that Cannon's body was sent through there. The unfortunate man was blown to atoms, his stomach having been found two blocks away.

Frank Hammond of Harrodsburg, who was standing just outside the building, had every bone in his body broken and was instantly killed. George Crossman of Steelton, a water boy, was also standing near the building and was so badly injured that he died while being brought to this city.

Among those most seriously injured are:

Michael Wade of New Holland; may die.

Frank Lewis of Lancaster.

Frank Peale of Scranton.

David Hoffman of Reading.

Joseph Hann of Allentown.

Walter Faesig of New Holland.

Philip Lawrence.

John Conlon.

John White.

Robert Shirk of Lancaster.

Two other buildings close to the summer kitchen were badly wrecked, as was also part of the hotel, while the whole front of a large implement store was blown out. The tin roofs of a number of houses were razed and ruined. The damage to property will amount to a large sum. Just what caused the explosion can only be conjectured, as Cannon was the only person in the building when it occurred.

SERIOUS RIOT AT BELFAST.

Crowds Stone Nationalist Procession—  
More Trouble Feared.

Belfast, Aug. 18.—Serious rioting occurred Monday in connection with the nationalist manifestations in favor of granting amnesty to the Irish political prisoners. There were several processions of nationalists through the streets as a beginning and they were finally merged into a large procession, headed by bandsmen, armed with spears. The procession attracted immense crowds of people and stone-throwing commenced. This served to enrage the nationalists and their bandsmen attacked the crowds with their spears, wounding many people. The police charged the rioters and used their batons freely, with the result that several persons were hurt before order was restored. The police are taking steps to make a display of force calculated to prevent any further serious rioting, and, if necessary, the military will be called upon to assist the constabulary in maintaining order.

Heavy rain put a stop to all rioting and no further trouble of this nature has been reported. The troops, however, are still confined at the barracks, awaiting further developments.

WILL IGNORE COCKRAN.

Bryan Stands by His Speech at Madison Square Garden.

Upper Red Hook, N. Y., Aug. 18.—William J. Bryan's itinerary after he has rested has been partly arranged. He will not go back to New York to answer the speech of Cockran. He will go from here to Buffalo, from Buffalo to Erie, from Erie to Cleveland, speaking at each place. From Cleveland he will go direct to Lincoln. When he leaves Lincoln he will go direct to the south, the itinerary of that trip not as yet being arranged, but including speeches in Kentucky, Florida, Missouri and Maryland, and then he will come east again about the last week in September. He will speak in Brooklyn and then go to New England. Upon his return from New England he will speak in New York city.

Mr. Bryan said: "Mr. Cockran and I discussed both the silver question and the income tax while in congress. If he advances any new arguments they can go to the country along with my speech of last week. I shall not return to New York until the latter part of September, when I expect to speak briefly in Brooklyn on my way to New England and in New York on my return from New England."

## SPAIN WILL MAKE NO CLAIM ON US

### IMPORTANT STATEMENT OF A MADRID NEWSPAPER.

Calderon Carlisle's Report Is Looked Upon at Washington as Simply a Bluff—Secretary Bayard's Note On the Same Subject—The International Situation.

Madrid, Aug. 18.—The Epoca semi-officially denies that Spain is preparing a bill of damages against the United States.

Washington, Aug. 18.—In official circles there is considerable discussion concerning the pamphlet of the Spanish legation, prepared by its attorney, Calderon Carlisle. In the state department there was no criticism as to the publication of the document, and it was not regarded as one at which offense could be taken.

While it is acknowledged that the prima facie object of the document could only be the laying of the foundation for claims against the United States, there were also intimations that the pamphlet was issued and given wide circulation for the purpose of making the United States more vigilant in preventing filibustering expeditions, as the Cubans in this country are redoubling their efforts to send munitions of war to the insurgents.

Attention was called to the note of Secretary of State Bayard to Julian Valero, who in 1885 was minister from Spain, who called attention to the celebration of the arrival in Cuba of filibustering expeditions, of expressions of sympathy for the Cubans, and pointed out that the trial of offenders by jury was a serious argument against appealing to the courts, as the people would sympathize with the offenders, and the latter would be acquitted.

To this portion of the Spanish minister's note Mr. Bayard replied that the government of the United States did not attempt to exercise any power over the opinion and expressions of people within its domains. Mr. Bayard in his note added: "The executive can do no more to punish or repress offenses of this nature (expeditions against another government) without the judicial ascertainment of the fact that an unlawful act has been committed than it could by administrative mandate award death on charge of murder. Neither in one case nor the other could the representation of parties claiming to be aggrieved override the indispensable requisite of a judicial proceeding."

Mr. Bayard says considerably more on this point, emphasizing his position. He does not ask Spain to be the plaintiff, but says the United States will be the plaintiff in all cases where a breach of the law is charged which will bring the case within the statute, and adds: "Permit me to assure you that if any attempt be made on your part or by your agents to cause the laws applicable to the case, and the international obligations of the United States, to be respected to their fullest extent shall fail, and the incident be brought to the attention of this department, it will promptly lend its aid to vindicate the law and enforce its remedies."

Mr. Bayard thus placed the responsibility of locating filibusters and hostile demonstrations against Spain upon the Spanish government. The entire note is pointed out as defining the position of the United States in the present case, and answering fully the assumption of the counsel of the Spanish legation in the pamphlet just published.

## WORLD'S COINAGE OF SILVER.

During the Year 1895 It Amounted to \$113,672,200.

Washington, Aug. 18.—From official information received by the treasury department from twenty-one countries, the coinage of silver during the calendar year 1895 amounted in the aggregate to \$113,672,200. Of this sum \$13,603,200 was recoinage. Deducting this sum from the total coinage gives the coinage of silver from new bullion in 1895 as \$100,069,000.

The world's product of silver during the calendar year 1895 is estimated to have been \$226,000,000. The amount of new bullion used in the coinage so far as known was \$100,069,000, and from reports received from twelve countries the amount used in the industrial arts was \$42,000,000, while the exports to the east amounted to \$37,500,000, making the total disposition of the world's silver product for 1895, so far as known, \$179,569,000, which would leave \$46,430,000 for coin and use in the arts by the countries from which no reports have been received.

Bourke Cockran's Meeting.

New York, Aug. 18.—The managers of the gold democratic mass-meeting, which is to be held in Madison Square garden here to-night, and at which Bourke Cockran is to answer Bryan, are endeavoring to have representatives present from every state. The managers of the meeting are working hard to draw as large an attendance as at the Bryan notification meeting of last Wednesday. It was announced that after his speech in Madison Square garden Mr. Cockran would make an extended tour, speaking in Maryland, Virginia, Ohio, Michigan, Illinois and Indiana.

Place for Gen. Weaver.

Ottumwa, Iowa, Aug. 18.—General Weaver has been tendered a place on the democratic national campaign committee and will accept it.

## PARALYSIS FATAL TO GAIL HAMILTON

### NOTED WRITER DEAD AT A RIPE AGE.

Stricken Early Sunday Morning, She Remains Unconscious Until Her Last Moment—Literary Executor of James G. Blaine, Her Cousin—Notable Pieces of Work.

Hamilton, Mass., Aug. 18.—"Gail Hamilton," Miss Abigail Dodge, died at her home on Main street at 9 o'clock Monday night. She arose apparently quite well Sunday morning, but while eating breakfast was stricken with paralysis, the shock being much more serious than the one experienced in Washington in May, 1895. Her physician was immediately summoned. He found her unconscious and she remained in that condition until death came.

Gail Hamilton was a native of the town in which she died, having been born in 1830. In 1865-67, she was one of the editors of Our Young Folks, a magazine for children, published in Boston.

From 1870 until a little over a year ago she had lived most of the time with her cousin, Mrs. James G. Blaine, in Washington. In course of this daily contact with the Blaine family, Miss Dodge was led into a very close friendship with Mr. Blaine, and at the death of the latter, she became his literary executor, being in possession of all his papers and documents of value to her as his authorized biographer. She was engaged, as frequently as her health would permit, on Mr. Blaine's biography from the time of his death until her illness of last year, and it is thought her untiring devotion to the work was instrumental in bringing about prostration, and eventual death.

Gail Hamilton was a frequent contributor to prominent magazines, and her published works, written in a witty and a aggressive style, consisted largely of selections from her contributions. In 1887 she wrote a series of letters on civil service reform for a New York paper. Letters on a wide range of public questions, written for the Boston Journal, were widely copied throughout the United States. During recent years she engaged in political writing, and many famous review articles and political interviews have been accredited to her which have roused much warm discussion and have exerted more or less influence upon national politics.

## JONES MAY NAME DUBOIS.

Wants a Silver Republican on the Bryan Campaign Committee.

Washington, Aug. 18.—Chairman Jones of the democratic national committee will probably leave for Chicago Wednesday. It is not known when he will complete the campaign and executive committees. The members of the latter committee already selected are sufficient to enable it to start at once upon its work. It is likely that one of the vacancies will be filled by the selection of a silver republican—probably Senator Dubois. At all events, it is expected that Dubois will be associated in some manner with the management of the campaign in the west.

Although Chicago has been selected as the national headquarters for the democratic committee, much of the campaign work will be done here. The branch headquarters to be located here will work in connection with the congressional committee. Most of the literature will be distributed from here. The question of locating branch headquarters west of Chicago has not yet been decided.

## IN THE INTERESTS OF GOLD.

Forty-Two States to Be Represented at the Convention.

Chicago, Aug. 18.—"At least forty-two states will be represented at the convention of the national democracy at Indianapolis Sept. 2," said W. D. Bynum, the chairman of the national executive committee of the anti-silver democrats, Monday afternoon when the committee adjourned. The states Mr. Eynum does not expect to have represented at the Indianapolis convention are Idaho, Utah and Nevada.

The executive committee elected Walter Kessler, of Indianapolis, sergeant-at-arms for the convention. After receiving a report to the effect that all the railroads had agreed to make a reduced rate of one fare for the round trip to the convention, the committee adjourned until Messrs. Cutcheon and Wilson presented a statement which they had been instructed to prepare at the Indianapolis conference.

Bourke Cockran, of New York, will probably be selected for temporary chairman of the convention.

The statement written by Messrs. Cutcheon and Wilson is addressed to the democrats of the United States. It sets forth the urgent necessity for the maintenance of the gold standard.

## INFORMAL CABINET MEETING.

President's Official Family Meet in Conference at Gray Gables.

Buzzard's Bay, Mass., Aug. 18.—Attorney-General Harmon was at Gray Gables Monday, and left on the late train last night. While here he met Secretaries Carlisle, Olney, and Lamont, these four members of the cabinet being at Buzzard's Bay at the same time.

There is no doubt some important matters were discussed, notwithstanding the statement that the visit here of so many cabinet officers at this particular time is purely of a social character. There are several reports in circulation of what passed at the meeting, one being that the advisability of issuing a statement with relation to the third party ticket was discussed, and that Secretary Smith's position was also considered.

The organization is non-partisan in its nature, and its purpose is to discuss and recommend to congress and the legislatures of the various states legislation meant to benefit the agricultural interests.

## May Name State Ticket.

Indianapolis, Ind., Aug. 18.—The question of calling a convention of the Indiana democracy to put a state gold ticket in the field is being agitated to a considerable extent in a number of local cities where the sentiment is strong, and it is more than probable that a movement in that direction will take shape this week. While the old time in charge of the Indiana headquarters in this city are hold favorable to such a step they appear themselves bound by what they deem to be the majority sentiment.

## LAMPS AND BELLS TO RIDE ON BIKES

### THE COUNCIL PASSES THE M'KEY ORDINANCE.

**Tax Roll To Be Placed in the Hands of the City Treasurer For Collection—Committee to Look Into Sewerage Plan—Other Business Done.**

At last night's adjourned meeting of the common council, the aldermen voted to:

Place the tax roll in the hands of the city treasurer for collection, after the same had been duly signed.

Disallow the bill of Mrs. Matthews for damage done by water at the Fountain House.

Instruct the sewerage committee to look into the cost of the proposed sewer from the city hall to Dodge street.

Recommend the vote on Alderman McKee's bicycle ordinance, and passes it with one amendment—prohibiting sidewalk riding. Accept the invitation of the Labor Union to participate in the Labor Day picnic. Defer action on the smoke ordinance until the next meeting.

Ordered some street repairs and then adjourned.

With the exception of Aldermen Imman and McLean, a full board was present. City Clerk Badger informed the council that he had the tax roll and that the same was ready to sign.

He also presented Captain Pliny Norcross' application for a building permit, the same having been refused by the chief engineer, and by him referred to the council.

To Attend the Picnic.

An invitation from the committee of the Labor Day picnic was received and read, and on motion of Alderman Kothman, the invitation was accepted.

Chairman McKee, of the fire and water committees, to which was referred the Norcross application to build, reported, asking for further time, and the request was granted. The addition is to be built on the rear of the Phoebe block, and to be a wood frame, covered with sheet iron and asbestos, as per the specifications in the hands of the fire and water committee.

Chairman Milmore, of the highway committee, reported adversely on the claim of Mrs. Matthews, for \$23.30 damages done by water at the Fountain House, the city attorney holding that the city was not responsible.

Chairman Milmore also moved that the city engineer's sidewalk grade on Bluff street, be referred back to the aldermen of the Second ward. Adopted.

Chairman Burnham, of the sewerage committee, reported that the city engineer had prepared plans and specifications for the proposed sewer from the city hall down River street to Dodge, with catch basins at Milwaukee and River streets. The estimated cost was: Catch basins, etc., \$170; sewer pipes, \$483.

Questions and Answers.

City Engineer Bledsoe said that the sewer would be in accord with the adopted city plan, and would be made of ten-inch pipe.

Alderman Milmore—"How many sewers empty into the river?"

Alderman Burnham—"Four or five."

Alderman Milmore—"Who made complaint?"

Alderman Burnham—"Many complaints have been made to the health officers. Captain Norcross has cleaned the race way out. He does not think that he ought to do it. Neither do I. The raceway is private property."

Alderman Milmore—"I do not think the raceway is private property any more than the river is. If the race way owners have not complained, I do not think that we ought to spend an large amount of money to lay a sewer."

City Attorney McElroy was asked whether or not the raceway was private property, and answered that it undoubtedly was.

Alderman Burnham—"If the city was not interested, we could tell the private parties to take their sewers out, but the city is as deep as the mud as they were in the mire."

Alderman Milmore—"do not see where the proposed plan could be any better than the present arrangement, as do not think the refusal to gather sewers, the race comes from the city."

Committee to Look Into the Sewerage Plan.

Alderman Burnham moved that the sewerage committee be instructed to look into the sewerage report to be made at the next meeting. Adopted.

Alderman Burnham then moved reconsider the McKee bicycle ordinance, and offered an amendment thereto to the effect that it should be unlawful to ride on any sidewalk in the city. The motion was adopted, and the ordinance was then passed.

Alderman Burnham's order that the

north side of Milwaukee street, from Milton avenue to Division street be repaired was passed and Alderman Stoddard called for the smoke ordinance. Clerk Badger explained that the smoke ordinance was in the hands of Chairman McLean of the judiciary committee to which it had been referred and Alderman McLean was absent.

City Attorney McElroy's opinion was asked for and he thought the ordinance was an unreasonable one.

Alderman Stoddard then took the floor.

Smoke Was a Nuisance.

He said that the smoke from the incandescent light plant was a great nuisance and was making people sick. Something ought to be done with it. It had been said that steam injectors could be used and that they would cost \$10 each. He had offered to buy two, himself, but the company said it would require more coal if they were used and he did not want to furnish them the injectors and furnish the coal too.

"Nobody wants to enforce the ordinance on every engine and locomotive," Alderman Stoddard declared. "The engines and locomotives generally move on after awhile, but this is a continual nuisance, running twenty-four hours a day. Of course we can do as the receiver told us to do—'move out'—but many of us do not want to, as we lose our money invested there. I should have brought suit before this, but the company is in the hands of the court, and it is a hard matter to sue the circuit court."

The matter will come up again at the next meeting.

Alderman Eddles introduced an order that the mayor and city clerk be directed to sign the warrant for the collection of the city taxes, and the same when so signed be placed in the hands of the city treasurer for collection. Adopted.

Alderman McKee presented an order for the street commissioner to repair Court street from Main street to the bridge and to put in a block crosswalk across Court street on the south side of Park street. Adopted.

The services were very interesting, the pastor's statement and the address by President Whitford, being replete with facts as to the early history of the church, unknown heretofore to many of its hearers.

Fetherston Brothers, of this village, shipped four cars of oats and two of live hogs, last week. Owen Mullen, who has been in the employ of Armour & Co., of Chicago, for several years, visited his relatives here last Saturday and Sunday. William Smith, Esq., of Janesville, was a visitor in the village, Saturday. Rev. Victor E. EVANSVILLE YOUNG MAN IS DEAD

William Yarwood is Called Home—Other News and Notes.

Evansville, Aug. 18.—William Yarwood died at his home in this city, Saturday evening. Funeral to take place at the M. E. church, Tuesday at 2 o'clock. Mr. Yarwood was a very ambitious young man having been section boss of the Northwestern Railroad in this city for some time. About a week ago he was taken ill with inflammation of the bowels and has been fast falling ever since. Dr. Bassett, of Chicago, was with him for two or three days, but the fatal end came. He leaves a wife, nee Roxie Grestinger, and a little daughter to mourn the loss of a kind husband and father. Several have returned home from their Eastern trip. George Hall, Jr., has returned home, his show season having closed until fair time. The Hall & MacFlyn show will spend the next four weeks at the World's Fair city. Levi Knappier is still under the doctors' care with very little signs of improvement. Mrs. Mabel Lower, of Chicago and Miss Hattie West, of this city, are visiting friends in Baraboo. John Bly and family are home from Brodhead. Frank Hubbard and family are visiting G. I. Jenkins, of Rockford. They made the trip overland. Elmer Libby came up from Harvard to see the Evansville boys win in the ball game, Saturday. The most interesting ball game of the season was played here, Saturday, between the Fort Atkinson and the Evansville teams. Fort Atkinson came with the best men they could obtain, and with many spectators, to "do up" the champion team. At the last moment, Tom Morrissey of Janesville, and Greig, disappointed the Evansville club, so the two young Broughton boys had to take their places. Then Fort Atkinson thought they could "do up the kids, dead easy." But when the game began, the "kids" were too much for the Forts. Only one of the visiting team succeeded in reaching second base, and the game was won by the home team by a score of 6 to 0. Many were over from Edgerton to help "holler" for Fort Atkinson, but all returned home with throats uninjured and "sick at heart." Come again, and have your pockets full, next time. ## WHAT IS THIS DISEASE CALLED

### DYSPEPSIA?

Like a thief at night it steals in upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky saliva collects about the teeth. The appetite is poor. There is feeling like a heavy load on the stomach; sometimes a fair, all-gone sensation at the pit of the stomach which food does not satisfy. Eyes are sunken, the hands and feet become cold and clammy. After awhile a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become constipated; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow; the urine is scanty and high colored, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste and sometimes with a sordid taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a Liver Complaint, some for Dyspepsia, others for Kidney Disease, etc., etc., but none of the various kinds of treatment have been attended with success.

Now, the Shaker Digestive Cordial causes the food eaten to be digested. This will cause an appetite for more food, and this being digested will result in an increase of strength, an increase of flesh and an increase of nerve power.

The tired, weary feeling will give way to vigor and courage. The pale, thin and emaciated will recover their color and plumpness, because red blood and fat are the result of properly digested food.

A ten cent trial bottle will produce a result. Its good effect will be realized at once. You will not have to take a dozen bottles to find out if it is doing you any good. Try it, and then give praise to the Shakers of Mount Lebanon, New York, for the relief that you obtain.

## THE NEWS OF ROCK COUNTY.

Continued from Page 2.

evening, Woodman meeting; Friday and Saturday, teachers' examination. Wednesday's picnic will be a union affair, participated in by the Methodist and Congregational Sunday schools of Shopiere and the Baptist school of this place, and will be held in a fine grove belonging to Charles Rice, on the east bank of Rock river, near T. L. Hollister's. Lemonade and cake will be served at the Baptist Y. P. S. C. E. social, to be held at the church, next Friday. The programme for the evening will be presented by the members of Pastor Mayhew's class in elocation. All are invited. Unless something unforeseen happens, the married and unmarried Woodmen will meet on the base ball diamond at 2:30 o'clock, next Saturday afternoon, and give a practical demonstration of how the national game should be played. The regular meeting of the Fairchild republican club, held last Friday evening, was a well attended and interesting session, at which the opening gun of the campaign in this vicinity was fired. Thomas S. Nolan and Register of Deeds Oscar D. Rowe, were the speakers. Mr. Nolan's speech was confined mainly to the finance question, and showed a thoughtful preparation, and he was accorded close attention during its delivery. Mr. Rowe's off-hand remarks to close with, were right to the point, and well received. The Fairchild club now numbers forty-two members, and other names will soon swell the roll to half a hundred. A democratic free silver club was organized at Lawton's hall, in this village, last Saturday evening. The club starts out with fifteen members, and is officered as follows: President, George Blunk, vice president, John Busfield; secretary, William Brinkman. Superintendent David Throne will conduct a teacher's examination at the school building here next Friday and Saturday. Remember the regular weekly prayer meeting of the Baptist church is held each Thursday evening. Afton Camp No. 2192 M. W. A. meets in regular session next Saturday evening. Mrs. Margaret McCrea died at her residence in this village last Wednesday evening, after a long and painful illness, aged sixty-eight years. Deceased was one of the old time residents of this vicinity, well known and highly respected. A husband and six children, three sons and three daughters, have preceded her to the other shore, and one son, Leonard J. McCrea, of this village, is left to mourn her loss. The funeral services were held from the Baptist church here, of which she was for many years a devoted member, last Friday afternoon, at 2 o'clock, Pastor C. D. Mayhew officiating. There was a large attendance at the services, many being present from both Janesville and Beloit. The pall bearers were C. G. Antisdel, R. S. Waite, L. H. Miller, George Shaw, Robert Jackson and W. H. Eldredge. The floral offerings were numerous and very beautiful. The interment was in the family lot at Afton cemetery. Miss Alice Eldredge has returned from an enjoyable visit with friends at White-water and Janesville. Harry E. McCrea, of Saxon, Wis., and Miss Stella Weaver, of Beaver Dam, Wis., came down last week to attend the funeral of their grandmother, Mrs. McCrea.

## Card of Thanks.

I hereby desire to express my heartfelt thanks to the many neighbors and friends who so kindly rendered assistance during the recent illness, death and burial of my mother.

## Gossip of Clear Lake.

Clear Lake, Aug. 18.—Miss Dora Dann, of Footville, who has been spending the past two weeks visiting her cousin, Mrs. C. Stockman, has returned home. They are fixing the road near Clear Lake. Nine of Roses summer guests returned to their Chicago home last Saturday. Mrs. C. Stockman entertained two of her Janesville friends during the Institute at East Milton. Threshing machine music is heard everywhere in this vicinity. There are two picnics at the lake this week. Everyone kicks a wheel now-a-days. The cool breeze feels fine after the scorching weather of a hundred and above.

W., I would be pleased to meet all members of the order, who wish information regarding the amendments to our constitution, which are to come before the Grand Lodge at the special session, September 24, at Liberty Hall, on Wednesday, August 19, at 8 o'clock p. m.

## Assembly District Convention.

The republican Second Assembly District Convention of Rock county is hereby called to meet at the Patrons of Husbandry hall in Milton Junction, Wis., Thursday, August 20, at 11 o'clock a. m., for the purpose of nominating a candidate for the assembly for the Second Assembly District of Rock county, and transact any other business that may properly come before the convention.

The different towns, villages and cities of the district are entitled to delegates as follows: Bradford, Harmony, Johnstown, two each; Center, Lima, Magnolia, Porter, Union, three each; Fulton, city of Edgerton, four each; village of Evansville, six; Milton, eight. By order of committee.  
A. EAGER, Chairman.

## CONVICTS WALL AND PECK

Ellis B. Usher, ex-chairman of the state central democratic committee, made E. O. Wall and George W. Peck winces when he said:

"Mr. Peck was elected chairman of the democratic state central committee on the plea that he was a safe gold man. The Wisconsin delegation went to Chicago under the strongest gold instructions, with Mr. Wall's aid and approval. Mr. Wall was re-elected a member of the national committee at Chicago at his own solicitation, by the special efforts of his friends in the delegation, because he was regarded as safe for the protection of the consistency and integrity of the democratic party in Wisconsin. His election was accomplished by a re-consideration of a vote to postpone the selection of a national committeeman that had been designed to defeat his candidacy.

In the face of these facts Mr. Wall and his friend ex-Governor Peck have announced their support of Bryan and populism, and, since they have done this, it is remembered that there was a most significant and unpremeditated omission in the call for the convention of June 23 last, viz. The omission to call for an electoral ticket. If an electoral ticket had been named then, would have been a gold ticket. If Mr. Wall and ex-Governor Peck had been suspected of recreancy to the traditions and policy of the democracy of Wisconsin, on the money question, neither of them would hold his present position. The chronicle does not care to make harsh constructions of these facts, but it shares, in common with a large number of the able and leading men of the democratic party in Wisconsin, the feeling that there must be some better explanation for the conduct of these men than their empty plea for a 'regular' ticket; or else every sound money democrat in Wisconsin and the men especially who are responsible for their elevation to the positions they now hold, are justified in feeling that they have by reason of their personal friendship for and confidence in Edward C. Wall and George W. Peck, has been led against a political bunco game that is without parallel in Wisconsin politics."

Mr. Wall today answers one out of the twenty counts made against him by Mr. Usher, but the substance of the complaint stands unrefuted. It

will have full effect on the minds of Wisconsin democrats between now and November.

## THE CASE DROPPED.

Senator Vilas and Burr W. Jones have had all the apportionment suit they want. Yesterday they notified Chairman Peck, of the democratic state central committee that they had decided to withdraw from the case. The reason given for their retirement is that the action of the democratic party in championing the cause of free silver has destroyed their interest in the advantage to the party to be gained by the annulment of the apportionment act. Aside from the admission that it was partisan advantage rather than a desire to right a wrong that inspired Messrs. Vilas and Jones to take up the cudgel against the act their retirement is taken as a confession of weakness. Their pretext for dropping the case is too flimsy to be credited, and it is safe to say that no other attorneys will care to take up their half-finished work.

President Cleveland's reputation as a diplomatist has not gained by his failure to welcome Li Hung Chang. The result of Mr. Cleveland's unwillingness to be disturbed while fishing is that the eminent traveler will spend six days in the United States and four weeks in Canada. Important commercial advantages hinged on Li Hung Chang's visit and it is to be regretted that the president could not have curtailed his fishing trip a few days to receive a guest in whose honor the most impressive demonstrations have been made by all European powers.

Senator Vilas' retirement from the apportionment suit robs the campaign of an interesting feature, but makes the competition a little less severe for managers of real circuses.

Can Senator Vilas have swallowed his fine sense of justice merely to spite George W. Peck?

Does nobody love Senator Gorman?

## MELANCHOLY WOMEN.

AFRAID SOMETHING DREADFUL IS GOING TO HAPPEN.

How a Little Baby Girl Rolled the Clouds Away.

Of course a woman will naturally see the dark side of everything when tortured by some form of female disease, which her doctor cannot or does not relieve.

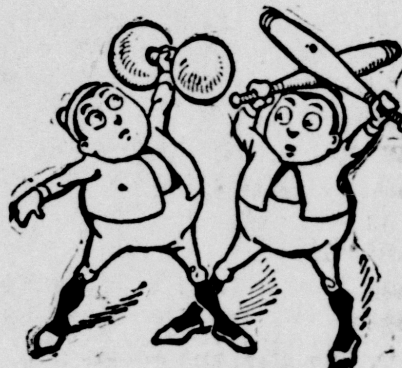

No wonder she is melancholy when head and back ache, pains run through the whole body and loins, nerves are weak, stomach out of order, digestion poor, sense of fullness and bearing-down, poor sleep and appetite, always weak and tired, irregular menstruation, whites, etc.

She probably is not so fortunate as to know that all female ailments are indicated by these never failing symptoms, and are controlled by Lydia E. Pinkham's Vegetable Compound; all female weaknesses quickly disappear by its use. It has been the thinking woman's safeguard for twenty years, and all druggists sell large quantities of it because it can be relied upon.

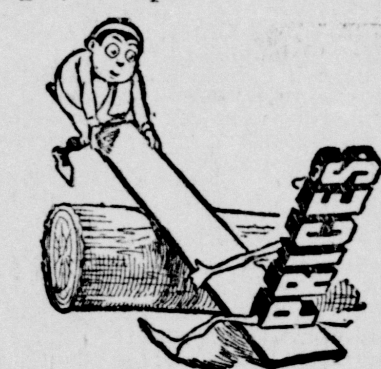

Still another woman speaks:

"I wish you would publish my name with your testimonials. I want every one to know that your Vegetable Compound has made me well and strong. I sing its praises all the time. When I was first married I was very weak and had female troubles badly; Oh, I was so weary, sick and melancholy, but the Vegetable Compound built me up, and now I have a dear baby girl, and I am so happy. No home is complete without a dear little baby and Lydia E. Pinkham's Vegetable Compound to roll the clouds away."—Mrs. Geo. CLAU, 35 Danforth St., Buffalo, N. Y.

## IN FACE OF DEATH DOCTORS BICKER

### CLINTON PANIC-STRIKEN OVER THE EPIDEMIC.

Some of the Local Physicians Declare It Is Quinsy While Others Pronounce It Diphtheria—Quarantine Regulations Are Neutralized By Failure to Act Together.

Half of Clinton is frightened to death over "diphtheria." The other half is equally frightened over "quinsy."

"A rose by any other name—"you know.

It makes precious little difference to most folks whether diphtheria or quinsy is the disease that kills them off.

It makes a lot of difference to Clinton doctors, however. Half of them are committed to a declaration that no diphtheria has been seen in town, and the other half say diphtheria is everywhere. Pending a decision professional ethics are strained severely.

The last death reported from the village is that of David Groshong's little boy Sunday morning. The boy was buried Sunday evening, but complaint is made over the lack of precautions against the spread of disease.

"The board of health took no steps to disinfect the house," said a Clinton man today, "until neighbors made complaints because of the odor. The family stayed out in the yard all day Sunday refusing to go into the house."

#### Peculiar Village Quarantine

Clinton quarantine regulations are necessarily a trifle lax, from the fact that nobody is in a position to say whether the disease prevailing is one that the quarantine law recognizes. No diphtheria cards have been hung out, the more circum-spect course having been adopted, of tacking up cards that read:

Contagious Disease.

So high is the feeling between Clinton physicians, that damage suits may result. Villagers are disgusted. A representative of the state board of health visited Clinton Monday, and reported the condition of things to be thoroughly disgraceful. There is no reason for a panic, but the bickering of rival doctors has caused a scare throughout the village; has brought trade to a standstill, and has made many people leave the place.

#### BELOIT HAD A BIG RALLY.

Campaign Organization Perfected Amid Much Enthusiasm—E. F. Hanson, Pres.

Beloit Republicans organized last night and had a big time. Many democrats participated in the meeting. E. F. Hanson was elected president, and made a very good speech of acceptance. The vice presidents from each ward were: First, J. B. Dow; second, C. A. Smith; third, S. Smith; fourth, E. A. Howell; Mr. G. M. Northrup, secretary; D. H. Pollock, treasurer. The executive committee consists of the president, secretary and treasurer with J. B. Foster, Cham Jorgensen, George Sugmiller and John Lester. The extent of the enthusiasm surprised even the old "warriors," and the large club rooms proved altogether too small to accommodate the crowd that sought admission, and larger rooms will have to be secured. A feature of the meeting was the large number of workingmen present, and the interest they manifested in the proceedings. The club will meet every Friday night, and will turn out for parade tomorrow night to hear Hon. A. C. Rankin's speech. Judging from the present aspect there will be no hall large enough in the city to accommodate the attendance.

#### TRAMP USES TORCH AT BELOIT

Burns a Barn Because He Was Refused His Supper

Beloit, Aug. 18.—A barn, together with its contents, including a horse, were burned last night, and a house adjoining damaged. The fire is thought to have been set by a tramp who was refused supper.

The barn belongs to Miss Fannie King. Mrs. N. A. Mitchell occupies the premises and her sister discovered the fire about 11 o'clock. Flames were then bursting from the windows and nothing could be saved. The tramp who is believed to be responsible for the fire had been hanging around the place all day and had been refused supper.

Mr. Mitchell was prostrated from excitement over the fire and is quite ill today.

#### LIGHT FROSTS ALARM GROWERS

Tobacco Raisers in Rock and Green County Are On Edge

Damage from light frosts are the reports that are coming into the city, but the damage is mostly in the region between Monroe and Mineral Point along the St. Paul road. Railroad men coming into the city this morning say that at many of the small stations along the route farmers were to be seen complaining of the damage.

#### FEW SILVERITES ON THE TRAIN

DID you ever know that walking on hard sidewalks continually had a tendency to spread the feet and make them large? A lady recently moved into this city from the country. At the time she came she wore number three shoes. Now she wears fours and her feet still grow. She is thinking of moving back on the farm or else buying a pair of Richardson's \$3 oxford shoes.

### END COMES TO HIM WHEN ALONE.

Wife Finds Him Lying In His Room at 9 O'clock a. m., and Dr. Chittenden's Investigation Shows That Life Had Departed Four Hours Earlier.

Peacefully, quietly, apparently without a struggle, E. D. Tallman passed away last night. He was found dead in his bed this morning.

Mrs. Tallman made the discovery on entering his room at 9 o'clock. Several times before she had opened the door, but supposing her husband was sleeping had withdrawn. When she realized that he was dead she called friends, and Dr. G. G. Chittenden was summoned.

Dr. Chittenden found that death had resulted from a giving away of the tissues of the heart. Mr. Tallman had been in poor health for some time but when he retired at midnight he was in good spirits and seemed stronger. He had been dead about four hours when discovered, Dr. Chittenden thought.

Mr. Tallman was the younger son of W. M. Tallman, and came here with his parents from New York state. While a young man he was a clerk in the drug store of Holden, Kemp & Co., his father being a member of the firm. The store was located where Rich & Davis' store now stands.

Leaving the drug store, Mr. Tallman associated himself with his brother, W. H. Tallman, in the manufacture of perfumes and extracts. Of late years he has not been actively connected with business, the care of his real estate taking much of his time.

Besides his wife Mr. Tallman leaves two sons, Stanley D. and Charles. The former is a student in the state university.

Mr. Tallman has been a well known figure in Janesville business circles for years. Unpretending and marked by his common sense and integrity he has friends in every part of the city. News of his sudden death brought forth many expressions of sorrow.

## PIONEERS PICNIC AS IN EARLY DAYS

### OLD-TIMERS ENJOY HOURS UNDER THE TREES.

Annual Outing of the Rock County Old Settlers' Society Proves a Success In Every Detail—Stories Told of Early Days—Some Who Took Part.

The people who lived in Janesville when there was good squirrel hunting on West Milwaukee street, had a picnic today. They went up the river on the Columbia and Mayflower, reminding one another meanwhile of the place where Uncle Thomas Lappin had his ferry, and where the tamarack logs were landed. W. T. Vankirk was kept busy, he being the head of the picnic committee, and Hon. A. P. Lovejoy looked after the duties that naturally fell on the president of so august a body as the Rock County Old Settlers' society.

A good many others beside old settlers enjoyed the picnic, and both parks were lively. During the afternoon there were speeches, and some of the pioneers even essayed a foot race. A youth of sixty-four years, who was accused of being a "ringer," won the laurels.

Among the pioneers who enjoyed the day were: Charles Sexton, A. M. Carter, J. Arnold, F. S. Lawrence, Edward Inman, William Tripp, Alfred Dewey, A. P. Lovejoy, E. G. Fidelity, Volney Atwood, H. Bump, J. Kliest, David Jeffris, George Barker, Henry Tarrant, Harry Pierce, H. B. Johnson, of Johnsonville, O. Osgard, of Orfordville, and C. Smith, of Turtle.

## THE ROSE OF THE WORLD.

Who dreamed that beauty passes like a dream?  
For those red lips, with all their mournful  
pride—  
Mournful that no wonder may betide—  
Troy passed away in one high funeral gleam,  
And Ussu's children died.

We and the laboring world are passing by;  
Amid men's souls, that waver and give place,  
Like the pale waters in their wintry race,  
Under the passing stars, foam of the sky,  
Lives on this lonely face.

Bow down, archangels, in your dim abode,  
Before you were, or any hearts to beat;  
Weary and kind one lingered by his seat;  
He made the world to be a grassy road,  
Before her wandering feet.

—W. B. Yeats in New York Tribune.

## GRIZZLY BILL.

"Thrilling?" said the major. "Well, I should say so. It was the most exciting thing that ever occurred to me. Why, I can't even think of it now without shuddering a little. I was considerably younger in those days than I am now. At the time I was a telegraph operator and dispatcher for the Mountain Valley Railroad company in a western mining country. It was a wild and lawless country, and I was not much in love with my place, but being poor I was obliged to accept the conditions with the best possible grace.

"Goldton, where I was located, was really nothing more than a railroad station. It was not on the main line of the Mountain Valley railroad, but on a spur which ran to the Ingot mines. Travel was not very extensive, in fact, but one train a day passed my lonely station.

"On the fifteenth day of every month I received by express for the superintendent of the Ingot Mining company the money with which the miners were paid off. The amount averaged between \$15,000 and \$18,000. On the 14th of June in that year the superintendent of the mines came to me and said:

"Perkins, the pay money will be here tomorrow, as usual, but I want you to exercise more than ordinary vigilance in guarding it, as I understand Grizzly Bill is operating in the mountains again."

"Grizzly Bill was a name to inspire terror. The individual who bore that unmusical sobriquet was an outlaw of great daring and resolution. He stopped at nothing. It was therefore quite natural for me to feel some little trepidation. I assured the superintendent, however, that I would do all in my power to guard the money, and I think," continued the major with some self-satisfaction, "that I kept my word in this respect."

"During the night which followed, a violent rainstorm swept through the mountains. Shortly before 10 o'clock the next morning I received word over the wire that the train from Pikeville could not get to Goldton owing to a washout below Summit Rock. It was thought that the track could be made passable by afternoon and that the train would reach my station before 6 o'clock. I communicated these facts to the mine superintendent by means of an assistant who was always at the station during the day.

"At 5 o'clock that evening I received a message saying that it would be impossible for the train to get through before 9 or 10 o'clock the next morning. I sent word to this effect to the mine superintendent, who, in turn, communicated it to the men. Feeling rather tired I turned in early that night. Sleep, however, was out of the question.

"The baggage, freight, express and telegraph offices were all under one roof. One corner of the big warehouse (it was hardly anything else) was partitioned off so as to make a private inclosure. This boxlike compartment I used for sleeping, eating and the transaction of the company's telegraphic and railroad business. The sender and receiver were affixed to a table conveniently near my bed, and if necessary it was possible to transmit or take a message without even arising. Of course I never found it necessary to do this; I simply mention it to illustrate the arrangement of the office.

"Along toward midnight the telegraph instrument began to click. I heard my call, opened the key and asked what was wanted. The operator at Pikeville wired back that the train which had been delayed on account of the washout had started for Goldton and would reach there between 4 and 5 o'clock the next morning. At precisely 2:45 o'clock the train steamed into Goldton.

"The express messenger, alighted and handed me a huge and many sealed packages. It contained \$17,000.

"That isn't all," said the messenger with a laugh. "I have a box in the car that, as heavy as lead, we've been wondering all the way up the mountain what it contained."

"The box was lifted from the car and placed on end in the freight department of the station. It was fully 7 feet long and 4 wide—horribly suggestive of the rough box in which a coffin is closed. I thought of this after the train had resumed its journey. I put the pay money in the safe, turned the combination lock and retired. I fell into a doze, from which I was aroused with a start by what seemed to be the ticking of the sounder. It said as clear as if some one had spoken: 'Beware! Danger threatens.' I sat up in bed. The moon was shining brightly through the window. I gazed intently at the sounder. It made not the slightest motion, yet the message came again, this time even more startlingly distinct than before. What could it possibly mean? I thought that I was dreaming at first, but when the mysterious message was repeated for the third time I came to a different conclusion. I don't believe in spiritualism, yet I am at a loss now to ascribe that inexplicable communication to any other source.

"At any rate, upon hearing the third message my mind instantly reverted to the huge box in the freight corner. The partitioning of my little apartment did not extend as high as the roof, but merely to a distance of about five feet above the level of my bed and by standing on the bed I could peer over

the top and see all parts of the interior of the station. I rose stealthily to an erect position and looked over the edge of the partition. The first thing I saw was the box, standing on end near a window in the extreme end of the station, and as I looked I saw its top slowly rise and a man's head protrude itself.

It was a thick, brutalized face, with grizzled whiskers. Instantly it flashed across my mind that it belonged to Grizzly Bill.

"The sight sent my heart into my throat with a bound, for I realized only too well that the outlaw would stop at nothing to get the money which he knew was in my possession. To him murder was child's play. But after the first emotion of fear I felt perfectly calm. In truth, I felt as though fate had thrown this desperado in my way so that I could conquer him. I don't know why I felt thus; probably I experienced the same emotions that a soldier does who goes into battle with fear and trembling, yet who, when actually in the midst of danger, feels as cool and collected as though he were out of reach of all possibility of harm.

"I got out of bed, picked up the coal shovel and scuttle and made as much noise as possible. As the night had been an unusually cool one a fire was burning, and as I passed the stove I grabbed my revolver and thrust it into my right coat pocket. Into my left pocket I thrust some nails and a hammer. Then, whistling as loudly as possible to mislead the desperado in the box, I left the little office and walked across the floor of the freight part of the station. When immediately in front of the box I sprang at it with the fury of a man fighting for his life and overturned it. It fell to the floor, top up, with a resounding crash. Instantly I was astride the box driving nails into the lid as hard and fast as a man in terror for his life could do. And all that while I was yelling at the imprisoned outlaw at the top of my voice, telling him that if he so much as breathed I would instantly kill him.

"But my threats did not appear to frighten him much. From the interior of the box came a volley of muffled oaths that would have astonished a Digger Indian. I never heard such horrible profanity. I fired my pistol twice in the air to let him know that I meant business. After awhile he became quiet. I carefully examined the box and found that there was no danger of suffocation, for at the upper end were a number of tiny perforations which freely admitted air.

"I sat astride that box until my assistant arrived at 7 o'clock. It was a long and trying vigil, but the magnitude of my victory buoyed me up. My assistant was almost too much amazed to speak when I told him of my capture. He quickly went to the mines and told the superintendent to hasten at once with a sufficient guard of men to the station and take Grizzly Bill into custody. It didn't take long to do this, and when Bill was hauled by no gentle hands from the box he was the angriest outlaw ever captured. He fought like a tiger, but it was of no use. The men who had him captive knew how dangerous he was. He was securely bound and later in the day taken to Pikeville, where he was subsequently sentenced to a long term of imprisonment in an eastern penitentiary.

"That little adventure," concluded the major, "proved to be the turning point in my career. I was promoted to an important position in the city, where I prospered, as you see. I am today quite content with myself and the world in general. Thus you see Grizzly Bill's undoing was my making."—St. Louis Globe-Democrat.

## The Sultan's Private Museum.

We entered a building consisting of one long room, filled with treasures. This is the sultan's private museum. Here are collected and beautifully arranged all the presents that he has received, as well as innumerable valuable objects that belonged to some of his predecessors. Countless clocks and watches, inlaid armor, objects in jade, caskets, wonderfully bound books, china of all sorts, pictures, miniatures, jeweled ornaments of every kind, all so arranged in their cases that one could examine and enjoy them, a delightful contrast to the confusion in which the treasures of the old seraglio are heaped together. One upright case contained four dozen of the most perfect deep blue Sevres plates, a present from the Emperor Napoleon, sunk into velvet, 24 on each side of the stand. Each plate was a picked and perfect specimen. The right names were not always attached to the objects, and we found a miniature painting which we recognized as Lord Palmerston marked as the prince consort.

We could have spent hours in examining everything, but time was limited, and we were taken on to the private stables, still within the harem walls, holding 12 of the most perfect Arabs, used by the sultan for riding and driving in the park of Yildiz. They were all white or gray. Of course we saw no dogs anywhere—they are held of no value in the east; but I was told the sultan possesses a peculiarly fine breed of white Angora cats, to which he is fond, and whose progeny he sometimes gives to friends, but I saw none of them. The only pet we saw was a cat, a cat at the harem gate, who posed the unknown sounds—I suppose the sultan's Mew—as we passed.—Longline.

## MILLINERY MATTERS.

Ostrich Feathers on Large Hats—Flowers of Fine Quality.

Flowers are worn in profusion, and they are finer in quality and more perfect in design than any heretofore shown in the market. It would be difficult indeed to select the natural from the artificial without touching them, so perfect is the imitation. Among the popular flowers are the magnolia, cornflowers, poppies, roses and orchids, with an abundance of greenery. Foliage in rich red bronze and autumn leaf colors is much liked.

Feathers are even more favored by the better dressed among fashionable women than flowers are. Rich, thick ostrich plumes, either black or white, are most in fashion. On very large hats the profusion of feathers is preposterous. Sometimes as many as 11 are used to trim. One large plume is carried around the crown, two or three fall over the hair at the back, and the others stand erect or are laid about in various directions. If the present fancy for feathers continues for any length of time, the business of ostrich farming will be an exceedingly profitable one, as good feathers

STRAW HAT.

always bring a high price. Ostrich plumes are a luxury in which bird lovers may indulge without any qualms of conscience, as, unlike breasts, wings, paradise plumes and aligrets, the feathers are not obtained at the cost of the bird's life.

Jeweled insects—butterflies and dragon flies in particular—ornament many fashionable articles of headgear. Sometimes these artificial flies, particularly the dragon flies, are wonderfully good imitations of nature. The French nation excels in mimicking insect life, in both genuine and imitation gems and metals, and the most perfect specimens of the art are seldom seen on this side of the Atlantic.

An illustration is given of a hat of crimped straw of a bright poppy red shade. It is trimmed in front with straw colored gauze and at the sides with yellow roses. A cluster of black ostrich plumes is placed near the back. With this is worn a collar of red velvet, above which is a frill of embroidered white gauze. The cravat is also of embroidered gauze.

## COSTUME OF THE PERIOD.

Serviceable Lace Dresses—Full Belts on New Parisian Costumes.

Efforts are being made to revive the lace dress, but thus far with only indifferent success. It was always a comfortable, becoming and every way desirable style, and arrayed in one of these a woman felt herself presentable for almost any occasion. A great deal of crape, crepon and soft crinkled goods will be worn, and the woman who buys a genuine Japanese crape may feel sure of getting her money's worth, even though she pays a good price for it. Made up either with silk, or in a complete

CREPON COSTUME.

costume over a silk lining, there is nothing that will give better service or be more comfortable and becoming.

A full belt, soft in appearance, but as high and well fitting as a corset, is a feature of many Parisian gowns of the moment. It is made over a close lining, of course, and in order to drape well the material should be cut on the bias.

In spite of attempts to introduce double and trimmed skirts, the plain one clings to general favor most tenaciously, and with good reason. Like every other part of the costume, it must be well cut and well made, and, that taken for granted, it has the merit of leaving the upper part of the figure the most important. Upon that fancy may exercise all her ingenuity and attention will not be distracted by the vagaries of skirt trimmings. Properly the eye of the observer should be drawn toward the face of the person observed rather than away from it, and the plain skirt is a great assistance in that direction, as well as being more becoming to the figure.

The cut shows a costume of woolen crepon of a dust gray shade. The skirt has godets at the back and is slashed at either side of the tablier to show a lower skirt of maroon and rose glaze taffeta. Maroon and gray applications adorn the lower part of the tablier. The Louis Quinze bodice is ornamented with applications and has a vest of changeable taffeta and a chemise of white gauze. The balloons of the sleeves are trimmed with plaited quillies of gray gauze and the close lower part of the sleeves is slashed to show taffeta panels. The cravat is of gray gauze. JUDIC CHOLLET.

No Advertising on Street Vehicles.

Liverpool has a city ordinance forbidding the use of the streets to vehicles displaying advertisements. A man who undertook to show an advertisement on a bicycle was fined recently under this law.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten, her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times, women have been treated for the wrong disorders. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 21 one-cent stamps to cover only the cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

### Good News From South Dakota.

The glorious results of this season's harvest of golden grain will pour a stream of sound money into the pockets of every Dakota farmer.

South Dakota has thousands of acres of choice farming and ranch land lying east of the Missouri river, and within one day's ride from Chicago or Milwaukee, which can now be bought reasonably cheap, but which before the end of another year may be advanced in price.

The stock raising industry in South Dakota is profitable and eastern capital is now being invested in cattle and sheep growing in that state.

Diversified farming, the growing of live stock, and the products of the dairy, are placing South Dakota foremost in the ranks of the successful western states.

Those desiring full information on the subject and particularly those who wish to seek a new home or purchase land are requested to correspond with W. E. Powell, General Immigration Agent, 410 Old Colony Building, Chicago, Ill., or to the local agent of the Chicago, Milwaukee & St. Paul railway.

G. A. R. Encampment to St. Paul and Minneapolis—Daylight Trip.

The Chicago, Milwaukee & St. Paul Railway will run through coaches to St. Paul and Minneapolis on August 31, from Janesville and the Mineral Point division, leaving Janesville at 9:40 a. m. and arriving at St. Paul at 9:30 p. m. This train will have G. A. R. posts from several places, and will run through the scenic route. This will give the public a chance to see the country en route. Fare for the round trip only six dollars and fifty cents. Tickets may be extended for return until September 30, by depositing ticket with joint agent at St. Paul. Get your tickets early.

It doesn't matter much whether sick headache, biliousness, indigestion and constipation are caused by neglect or unavoidable circumstances; DeWitt's Little Early Risers will speedily cure them all. C. D. Stevens.
